

HAMILTON

RANGEMASTER AM1000

#21-903
ANT

Order the 102" antenna from us or save some money and just get it from Radio Shack or a Ham/CB Radio Shop.
RS # 21-903

Mounting bracket Will mount transmitter to a 1 1/4" or 2" mast or pole.

Select the mount you need for your 1 1/4" mast at Radio Shack or other antenna store.

AM1000WR 100' or 2 pair #22 shielded wire to connect power and audio

The AM1000PR is your studio interface and comes free with each transmitter.

The Am1000PR has a power jack for the included power supply, and 2 audio in jacks. One jack for 8-16 ohm audio and the other for high impedance line audio.

AM1000T Flashes a green light when you are at the legal power. Included on every board.

AM1000F Replaces crystals, allows for easy changing of frequencies.

To Ground

Wire and other hardware you can get at Home Depot or Lowes.
